

EMS PERSONNEL

–provide additional life-saving measures with:

- High quality CPR
- IO drug delivery
- Advanced airway management
- ACD+ITD CPR
- Mechanical CPR
- Continuous ETCO₂ monitoring
- Cerebral oximetry
- Application of pediatric and adult drug algorithms
- Extended scene times
- Therapeutic temperature management
- Performance data collection

ACD	Active Compression Decompression
AED	Automated External Defibrillator
ETCO ₂	End Tidal CO ₂
IO	Intra Osseous
ITD	Impedance Threshold Device
